

NOS DA LITTLE STAR

Gather together crayons, pencils or paints and use them to decorate a piece of sturdy card (the inside of a cereal box or card postal packaging is perfect).

If you're using paint, you could try using your fingers and surprising items from around the house to make fun patterns and textures (we had fun with fly swatters, potato mashers, forks, and bottle tops!)

When your picture is dry, use the template below to cut out star shapes. Look closely at the patterns you've painted and see what patterns you like best.

What other space inspired shapes could you cut out?...

Now turn your shapes into a wall-hanging or mobile, or use them as encouragement at your Art Baba's bedtime by creating a growing constellation on the bedroom ceiling, and singing Twinkle Twinkle Little Star.

NEW WORDS /

GEIRIAU NEWYDD:

Space – Gofod

Star – Seren (Stars –Ser)

Sky – Awyr

Shape – Siap

Good Night – Nos Da
