

Fancy Fish

GLYNN VIVIAN

Play with patterns and explore mark-making. Use fish shapes as your canvas, and turn your artwork into a fun mix-and-match fish game!

You will need:

- Simple fish shapes cut out of card (pre paint them with a base colour if you wish)
- Paint and plates or tubs or mixing
- Painting tools: Fingers / Fork / Sponge / Scrunched up paper / Bubble wrap / String / Cardboard with outer layer peeled off / Brushes / Feathers

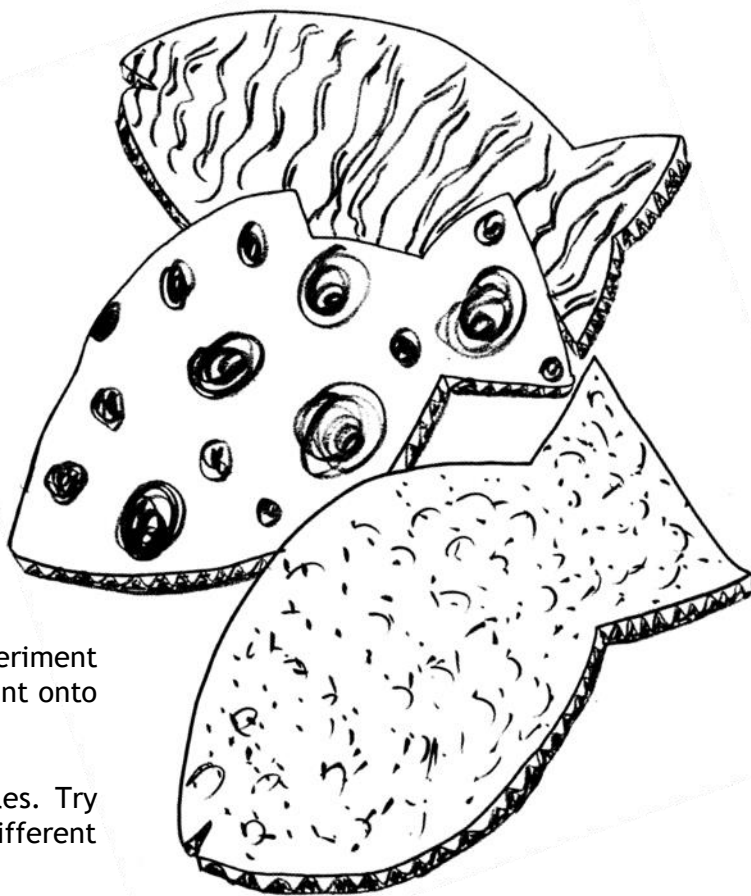

Use your fingers and painting tools to experiment with applying and making marks with your paint onto the cut-out fish shapes.

Try... Using your fingers to make lots of scales. Try dabbing and smearing the dabs to get different effects!

Try... Using a fork to make rows of lines. You can apply the paint using the fork, and also try scraping it away to reveal the colours underneath!

Try... Letting one layer of paint dry and then adding more layers and different patterns on top.

TIP: Why not cut your finished fish into 3 parts (Head, body, tail) and reassembling them by mixing and matching different patterns from other fish you have painted!
